FOREWORD

To analyze and describe the permanently valuable records of the Federal Government preserved in the National Archives Building is one of the main tasks of the National Archives. Various kinds of finding aids are needed to facilitate the use of these materials.

The special list describes in detail the contents of certain important record series. Its form and style are not fixed but vary according to the nature of the records to which it relates. Its distinguishing characteristic is that it goes beyond the general description contained in a record group registration statement and a preliminary inventory and describes records in terms of individual documents, dossiers, or file headings.

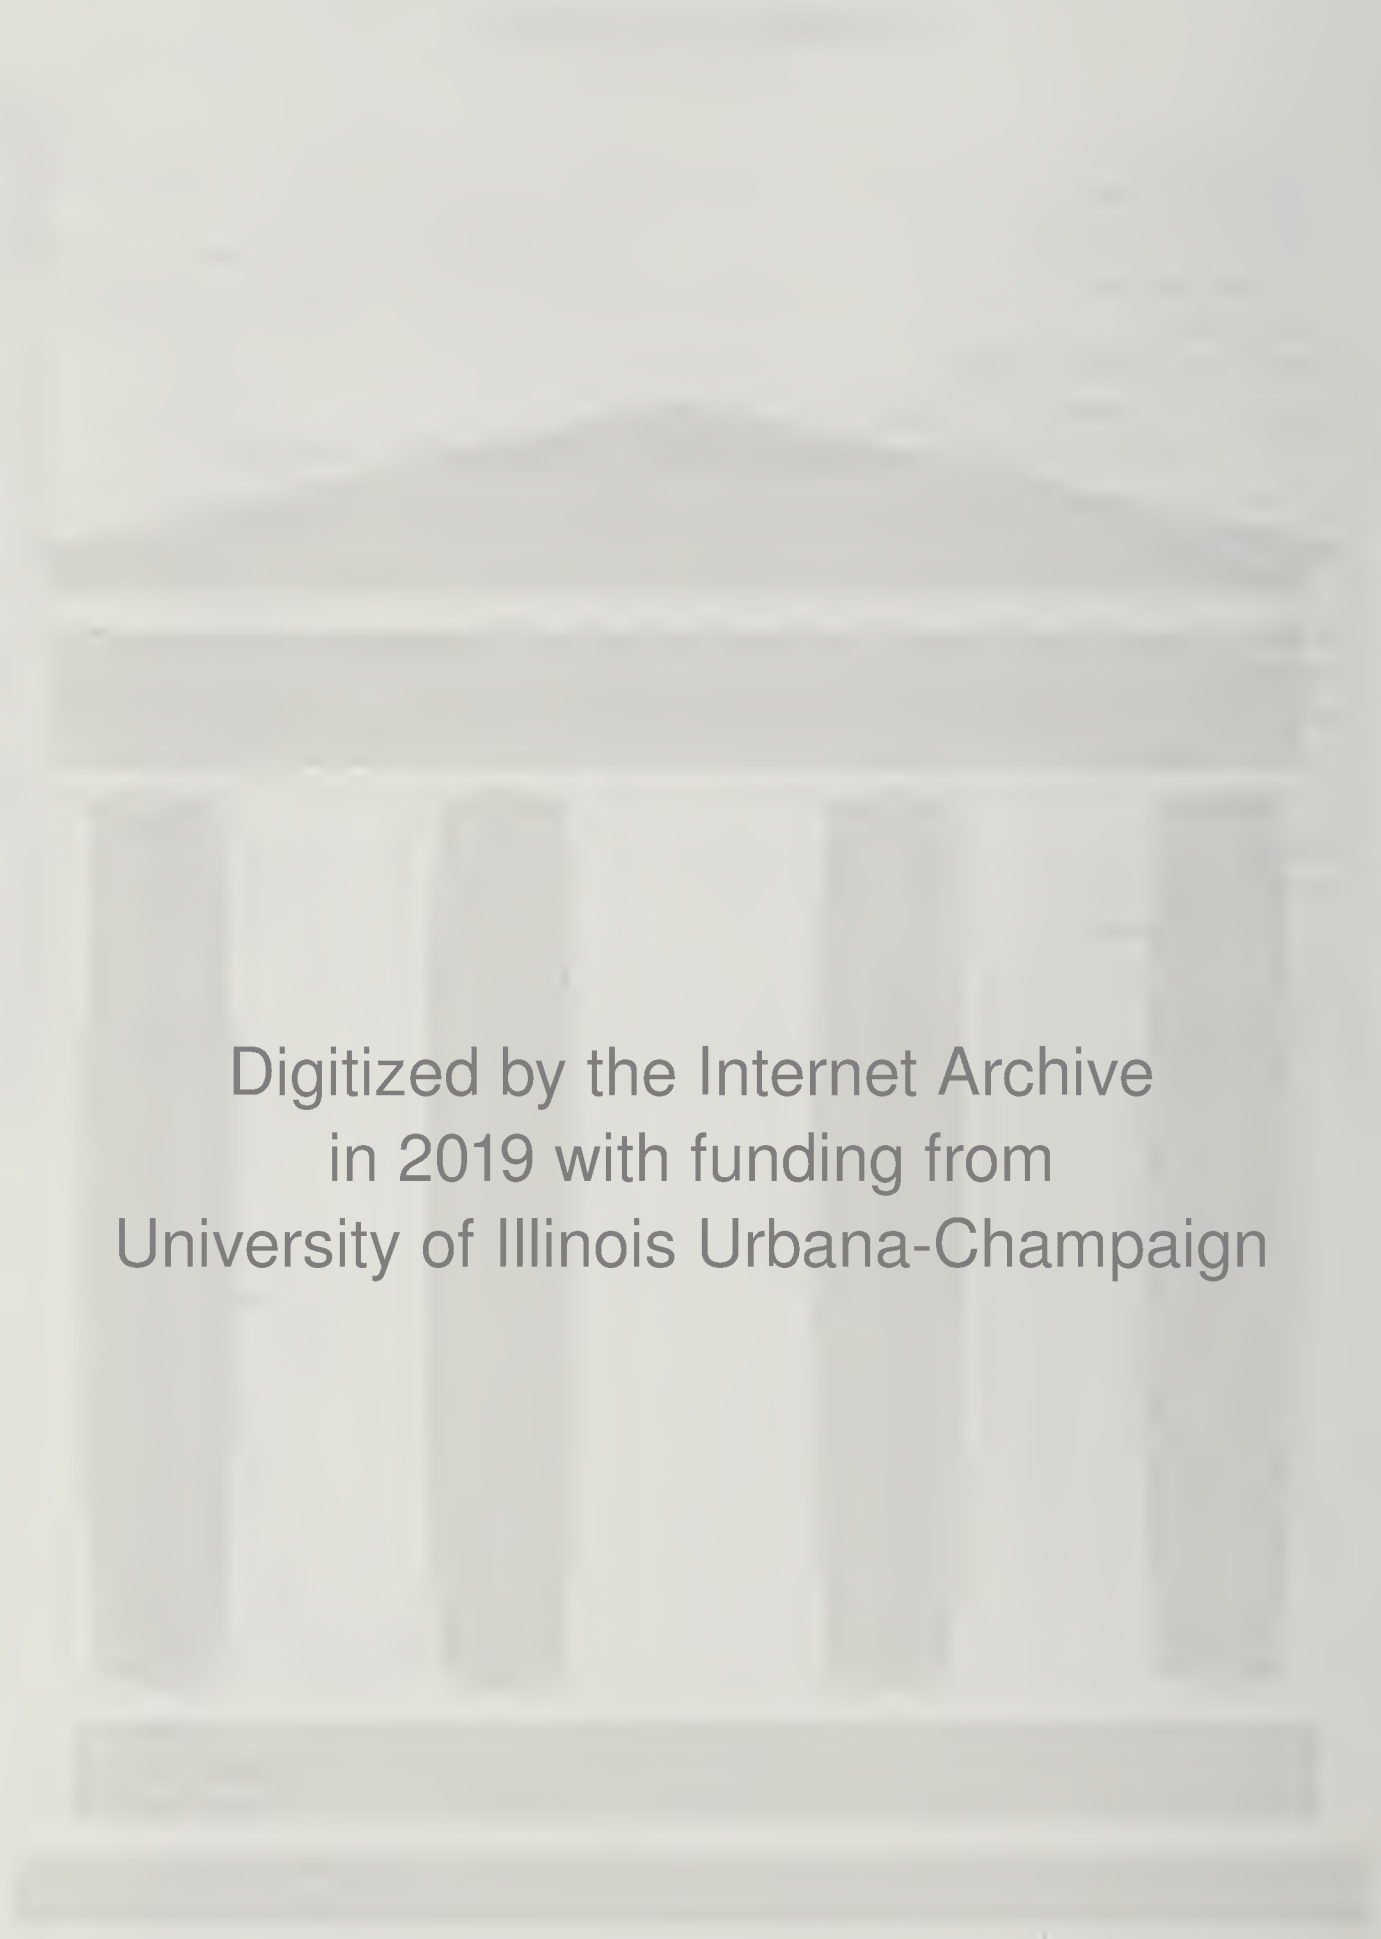

In addition to lists and other finding aids that relate to particular record groups, the National Archives publishes some that give an over-all picture of materials in the custody of the Archivist and some that cover records in the possession of other agencies. A comprehensive Guide to the Records in the National Archives (1948) and a brief guide, Your Government's Records in the National Archives (revised 1950), have been issued. More than 40 Reference Information Papers, which analyze records in the National Archives on such subjects as transportation, small business, and India, have so far been published. Records of World War I have been described in the Handbook of Federal World War Agencies and Their Records, 1917-1921, and those of World War II in the two-volume guide, Federal Records of World War II (1950-51). Many bodies of records of high research value have been edited by the National Archives and reproduced on microfilm as a form of publication. Positive prints of some 4,700 rolls of this microfilm, described in the List of National Archives Microfilm Publications (1953), are now available for purchase.

INTRODUCTION

The administration of Indian affairs was placed under the Secretary of War by the act which established the War Department in 1789. The work was carried on directly by the Office of the Secretary of War until March 11, 1824, when Secretary J. C. Calhoun created the Bureau of Indian Affairs as a separate agency within the War Department. In 1849 it was transferred from the War Department to the newly created Department of the Interior, where it has since remained. The Bureau of Indian Affairs is responsible for the management of all matters concerned with the Federal Government's relations with the Indians, including education, health, economic development, and legal rights.

The records of the Bureau of Indian Affairs and its predecessors comprise Record Group 75. Most of the records in this record group through 1939 are in the National Archives. The cartographic records that are filed separately from the textual records amount to 198 cubic feet and are in the form of manuscript drawings, annotated maps, tracings, blueprints, ozalid and other photographic copies, and printed maps. They show exploration routes, tribal lands, Indian cessions and reservations, military reservations, boundary lines, private land grants, railroad grants, allotments to individual Indians, homestead claims, school lands, church lands, national forests and parks, townships, townsites, farming and grazing districts, mineral lands, irrigation projects, and rights-of-way through Indian lands of railroads, pipelines, telephone and telegraph lines, highways, electric transmission lines, canals, and irrigation ditches. Although most of the maps were prepared by or for the Bureau of Indian Affairs, some were acquired from other sources for official use, often as exhibits or as a basic source of information. Some may have been prepared before the Bureau was established.

The maps in Record Group 75 are described in two parts in this list. Part I represents the central map files maintained by the Mail and Files Division. Part II represents maps maintained by the Irrigation Division. The maps of Part I are in four series. The maps in the first and largest series were numbered by the Bureau of Indian Affairs from 1 to 11,683 and were filed in numbered cardboard tubes, many maps often in one tube. They have been removed from the tubes, flattened, and placed in numerical order. They date from the early 1800's to 1939 and include copies of maps dating as early as 1764. The maps in the second series are similar except that they were not numbered by the Bureau. Some were in portfolios and parcels; others were in tubes. Since their transfer to the National Archives they have been removed from the containers and numbered from CA 1 to CA 621. The third series is composed of administrative maps, which date from 1878 to 1941 and are unnumbered. The maps in the fourth series, also unnumbered, are the record set of published maps of Indian reservations, 1908-44. Part II represents one series, which consists of maps prepared or used by the Irrigation Division of the Bureau or its predecessors during the period 1872-1943. Many of these

maps bear the file mark of the Irrigation Division. This series has no card index and was not arranged when it was transferred to the National Archives. The maps have been arranged by State and thereunder in folders by reservation or irrigation project.

An index on 3" x 5" cards has been prepared in triplicate for the maps in the first two series. For each map there is a card which gives the area, title, annotations, map number, date, size, scale, physical nature, and in most cases the agency or person responsible for the preparation of the map. The ribbon copies of the cards are filed by area, with subdivisions for Indian agencies, reservations, and tribal lands and for other administrative units such as military reservations and Indian schools. One set of carbon copies is filed by map number and thus forms a serial or shelf list. The other set of carbon copies is filed by subject. As many cards reflect complex and compound subjects that cannot be handled adequately with the single set of cards available, the subject index is the least satisfactory of the three indexes.

Map registers or "ledgers," maintained by the Bureau of Indian Affairs before 1921, contain information not easily obtainable elsewhere. The following ones are available:

1. An old map register labeled "Index to Maps-Land Div.-Indian Office," which was begun probably in the middle 1870's and superseded about 1883. Entries for many maps provide information not on the maps themselves or in the card index. The register also serves as a double check against maps for which the tube number is known but for which the map number is not known.

2. A large map register labeled "Map Index," which apparently was begun about 1883. This index also contains information that cannot be derived directly from the maps themselves or from the card index. It contains entries for certain railroad maps that are not included in the special railroad registers (see 3 below).

3. Three railroad registers, including one obsolete register. Of the two that can be used one is labeled "Index of Tube and Map Numbers Covering Railroad Rights-of-way" and contains a list of maps with dates of approval ranging from 1872 to 1910. The other is labeled "Railroads" and contains a list of maps with dates of approval ranging from 1872 to 1920. These registers are of special value as they frequently disclose what became of maps now missing from the collection, and they give clues to the interrelations of certain railroad companies.

4. A register bearing a partly obliterated label, "Rights-of-way for Telephone Lines," contains a list of maps with dates of approval ranging from 1901 to 1920.

All the maps in the five series are included in this list. The maps in the first and second series are described together in the same order

as the area index, that is, alphabetically by State or Territory, with sections for the United States as a whole, Canada, and Mexico. Within these major geographic divisions they are described under the specific administrative unit, such as Indian agency, reservation, tribal lands, military reservation, or school, to which they relate. A map is listed under one of these units even though it represents the area before or after the existence of the particular unit. Although only a few of the maps are listed by title, the general nature and contents of all are given. A map pertaining to more than two administrative units is described under the "general" section for the State or Territory. A map pertaining to only two administrative units is described under the first one appearing in the title, and a cross-reference directs the person searching for the second one to the entry. Cross-references are also used for different spellings of the same name and for different names for the same reservation. The administrative maps, which comprise the third series, are described in general terms, and the published maps of Indian reservations, the fourth series, are listed alphabetically by name of reservation. The maps maintained by the Irrigation Division, which comprise the fifth series, are described in the same manner as those of the first and second series, that is, alphabetically by State and thereunder by specific administrative unit or irrigation project.

Many differences in the spelling of names of tribes, bands, and reservations were found on the maps. The following sources were consulted in determining the spelling to be used in the lists.

- Hodge, Frederick W., ed. Handbook of American Indians North of Mexico. Washington, 1907-10. 2 vols. (Bureau of American Ethnology Bulletin 30.)
- Kappler, Charles J., comp. and ed. Indian Affairs: Laws and Treaties. Washington, 1903. 2 vols. (57th Cong., 1st sess., S. Doc. 452.)
- Kroeber, A. L. Handbook of the Indians of California. Washington, 1925. 995 p. (Bureau of American Ethnology Bulletin 78.)
- Royce, Charles C., comp. Indian Land Cessions in the United States. Washington, 1899. p. 521-997. (Bureau of American Ethnology, Eighteenth Annual Report, pt. 2.)
- U. S. Congress, House, Committee on Public Lands. Compilation of Material Relating to the Indians of the United States and the Territory of Alaska, Including Certain Laws and Treaties Affecting Such Indians, by Subcommittee on Indian Affairs . . . Making Study of Problems in Connection With the Public Lands of the United States Pursuant to H. Res. 66 (81st Cong., 2d sess.). Washington, 1950. 1,110 p. (Serial No. 30.)

When the above sources showed inconsistencies in spelling, the "State maps" of the General Land Office (1876-1945) were used to help determine the most acceptable spelling. Sixteen place names which could not be reconciled with standard sources were submitted to and approved by the United States Board on Geographic Names of the Department of the Interior.

Some maps described in the list are dated to show when they were prepared or when the surveys were made. Some maps give the date of approval, usually by the Secretary or Acting Secretary of the Department of the Interior and sometimes by the Commissioner or Superintendent of Indian Affairs. Some maps bear the date of certification, usually by a surveyor general of a State, the superintendent of an Indian agency, or the Commissioner of the General Land Office. Other maps give only the date of the information shown on the maps or the date when they were received by the Bureau of Indian Affairs. Any of these dates have been used in describing the maps. Because many of the maps are undated, it is not possible to give an overall date for the maps of a given administrative unit.

An index to the names of Indian tribes, lands, nations, bands, pueblos, reservations, and schools; to military reservations, camps, cantonments, forts, and barracks; and to projects (mostly irrigation) appears at the end of this volume. Through it the user can locate all the references to a given tribe or band although it occupied lands now in more than one State. No attempt has been made in the list to cross-reference from items described under one State to related items described under another State.

In addition to the records of the Bureau of Indian Affairs listed herein there are records relating to Indian affairs among the cartographic records that have been separated from the textual records of the Office of the Chief of Engineers (RG 77), the United States Senate (RG 46), the Office of the Secretary of the Interior (RG 48), the United States Geological Survey (RG 57), the Soil Conservation Service (RG 114), and the General Land Office (RG 49). A large number of unsegregated cartographic records may also be found among the textual records of these and other record groups in the National Archives.

Valuable assistance in the preparation of this list was furnished by W. Barton Greenwood, Executive Officer, Carl J. Wingate, and Brent M. Morgan, all of the Bureau of Indian Affairs, by John C. Ewers, Division of Ethnology, Smithsonian Institution, and by Oliver W. Holmes and Marshall D. Moody of the National Archives.

LIST OF CARTOGRAPHIC RECORDS OF THE
BUREAU OF INDIAN AFFAIRS

PART I. CENTRAL MAP FILES

The four series of maps described in this part of the list were transferred to the National Archives from the Mail and Files Division of the Bureau of Indian Affairs, where they were maintained as central map files by the Bureau. These maps were created or used by various divisions and offices of the Bureau for official purposes.

NUMBERED MAPS

Alabama

GENERAL. 6 items.

1

Copy of a map of West Florida, which includes the present State of Alabama, showing villages of the Choctaw, Chickasaw, and Upper Creek Nations, and including references to treaties of 1765, 1771, and 1772. Sketch of the rivers in Alabama and Tennessee running into the Tennessee River as far east as the mouth of the Hiwassee River in Tennessee; the sketch also shows the Chickasaw and Cherokee Indian boundary lines. Diagram showing the Choctaw Cession of 1830, the Creek Cession of 1832, and the Chickasaw Cession of 1833. Maps of southeastern United States, including Alabama, showing the location of various Indian tribes. Map of Alabama compiled by the General Land Office in 1895.

CHEROKEE INDIAN LANDS. 2 items.

2

Part of map of the United States with Cherokee lands indicated. Sketch made by Col. Richard Brown, August 5, 1814, showing the Cherokee boundary line.

CHOCTAW INDIAN LANDS. 1 item.

3

Map, compiled in 1882, showing lands ceded by the Choctaw Nation to the United States and by the United States to the Choctaw Nation, including parts of the Choctaw Cessions of 1803, 1805, and 1830 that lay partly in the present State of Alabama.

CREEK INDIAN LANDS AND RESERVATIONS. 10 items.

4

Map of Alabama showing the location of Creek lands under the treaty of March 1832. Large-scale maps of Barbour, Chambers, Macon, and Russell Counties showing the location of Creek Reservations under the treaty of March 1832. Maps, dated 1834, showing Indian reservations in Coosa and Tallapoosa Land Districts. Diagram of Alabama showing lands of friendly Creeks. Map showing Indian reservations, lands entered and patented, and school lands in Elmore, Tallapoosa, Lee, Macon, Russell, Bullock, and Barbour Counties. Maps of part of Alabama and Florida showing proposed railroad route and Creek boundary line.

Alaska

GENERAL. 33 items.

5

Map of northwestern America, compiled in 1867, showing the territory ceded by Russia to the United States and annotated to show Russian and Esquimaux settlements. Map of Koowak (Kobuk) River from a reconnaissance made by Lt. J. C. Cantwell in 1885. Sketch maps and general chart of Alaska made by the Coast and Geodetic Survey, dated 1885 and 1890, some of which are annotated to show location of schools, schools proposed, and schools in operation. Maps, dated 1893 and 1910, showing public schools for natives of Alaska, reindeer stations, and good pasturage for reindeer. Maps, dated 1907-10, showing the Chugach National Forest with additions, area proposed for elimination, and military and game reserves. Chart of the American northwest coast showing the track of the U. S. revenue cutter Wolcott during its cruise in June and July 1875 and the area occupied by the Haida Indians. Maps, dated 1875, showing distribution of the native tribes of Alaska and the adjoining territory. Plats, dated 1910-11, of surveys of additional homestead claims of soldiers in Controller Bay District. Railroad right-of-way maps, dated 1907-10, including the plan of a proposed bridge and trestle, and maps of land for terminals in the Controller Bay and Katalla Bay areas.

Arizona

GENERAL. 58 items.

6

Map of the country between the frontiers of Arkansas and New Mexico explored by Capt. R. B. Marcy in 1849-52, which also shows routes and trails as far west as the Colorado River. Maps of Arizona Territory, Military Department of Arizona, and State of Arizona and adjoining States or Territories showing explorations, topographic conditions, mail routes, railways, private land grants, 40- and 50-mile-limit railway grants, and national forests, some of which bear annotations indicating Indian tribes and reservations. Map, dated 1864, of the Colorado River from La Paz to Bill Williams Fork, based upon the exploration of 1st Lt. J. C. Ives. Large-scale topographic maps of southeastern Arizona and Indian reservations, some of which show withdrawals from and additions and restorations of lands to reservations; irrigation and reclamation projects (including proposed ditches, and dam and reservoir sites); extension of sewer line to Indian school near Phoenix, and areas in which well-drilling operations have been carried on. Map of lands near Fort Bowie. Blueprint of map, certified in 1872, showing the route of the survey of the Atlantic and Pacific Railroad through the Territory of Arizona.

CAMP McDOWELL (FORT McDOWELL) INDIAN RESERVATION. 6 items.

7

Part of map showing the Rio Verde Valley near Fort McDowell. Diagram showing outline of Camp McDowell Indian Reservation and relative position of ranch. Plat of a part of the reservation showing canal, river, and cross sections. Maps showing proposed extension of the reservation. Sketch of Camp McDowell and Salt River Reservations showing

farm districts. Map showing location of power transmission line of the city of Phoenix across the Camp McDowell Reservation. See also entry 24.

CAMP THOMAS MILITARY RESERVE. 1 item. 8

Map, bearing a file mark including the date 1877, of the Military Reserve at Camp Thomas, Ariz.

CAMP VERDE INDIAN RESERVATION. 1 item. 9

Map, approved in 1933, showing location of a highway through the reservation.

CHIRICAHUA INDIAN RESERVE. 1 item. 10

Map of part of Arizona showing the reserve.

COLORADO RIVER INDIAN RESERVATION. 23 items. 11

Map of a proposed irrigation canal for the Colorado River Indian Reservation, surveyed in 1867. Maps of definite location and amended definite location surveys of railroads, including station grounds. Map showing location of a public highway. Maps of an irrigation project, a proposed cutoff on the Colorado River, a water pipeline, an oil line, and a telephone line. Map showing allotments near Parker. Map, approved in 1909, of the townsite of Parker.

FORT APACHE MILITARY AND INDIAN RESERVATIONS AND SCHOOL. 50 items. 12

Topographic maps of Fort Apache, Arizona Territory, showing site of a proposed milk ranch; one map has annotations of 1923 showing the location of Fort Apache Agency and boarding school, and land to be reclaimed and distributed to Indians. Map of Fort Apache Military Reservation as surveyed in 1909 (original survey made in 1870) annotated to show erroneous features represented on the map. Maps of Fort Apache Indian Reservation showing fire areas, forest types, reserved land, permitted grazing locations or districts, cattle and sheep ranges, location of fences, farm districts, stockmen's districts, location of schools, proposed and completed telephone lines, roads, and trails. Plat and sketch of Fort Apache School. Maps showing the location of land to be used by the Catholic Church. Right-of-way maps, most of which were approved 1920-32, of highways, a telephone line, and a railroad (including a map of station grounds). Maps pertaining to irrigation projects and including location of ditches, canals, reservoirs, and powerlines. Maps showing location of minerals, mining claims, and logging areas. See also entry 27.

FORT McDOWELL INDIAN RESERVATION. See entry 7.

FORT MOHAVE (MOJAVE) INDIAN AND MILITARY RESERVATIONS. 39 items. 13

Map of Fort Mohave Indian Reservation as surveyed in 1928. Map of Fort Mohave Military Reserve and Hay and Wood Reserve. Map of the Herbert Welsh Institute at Fort Mohave. Map showing proposed road between Fort Mohave, Ariz., and Needles, Calif. Maps showing property

of certain land and irrigation companies, irrigation projects, reservoirs, levees and canals, and water pipeline rights-of-way of a milling company. Maps, dated 1910, showing allotments on the Fort Mohave Indian Reservation. Map of the Fort Mohave Indian Reservation and a sketch of proposed school farm to accompany report of the Superintendent of Irrigation for August 1907.

FORT VERDE MILITARY RESERVATION. 1 item.

14

Map of the reservation.

GILA BEND INDIAN RESERVATION. 9 items.

15

Map furnished by George W. Gordon, special Indian agent, in connection with his report of June 24, 1889, on the Gila Bend Reservation, which bears a copy of an Executive order of December 12, 1882, setting aside lands for the Papago and other Indians. Map of the Gila Bend Reservation allotted by an Executive order of December 6, 1894. Maps of irrigation canals and irrigation ditches on the reservation. See also entry 22.

GILA RIVER INDIAN RESERVATION. 41 items.

16

Map, bearing a file mark including the date 1879, of the reservation and surrounding territory. Maps showing the Gila River Reservation for the Pima and Maricopa Indians, the areas set aside by an act of Congress of 1859 and various Executive orders, a proposed extension of the reservation, reservation boundaries, farm lands, roads, railroads, population, medical districts, day schools, and mineral leases. Map, dated 1901, of a Maricopa Indian settlement on the Gila River Reservation showing a canal, roads, and land cultivated. Maps pertaining to irrigation showing the locations of dams, canals, ditches, wells, pumping stations, transmission lines, and irrigable and irrigated lands. Blueprints of maps and plans, dated 1918-19, of the Gila River Project. Right-of-way maps, approved 1888-1937, of railroads (including maps of depot grounds), highways, and telegraph and telephone lines. See also entry 23.

HAVASUPAI (YAVA SUPAI) INDIAN LANDS AND RESERVATION. 8 items.

17

Map showing lands occupied by the Havasupai Indians from a reconnaissance made in June 1881. Maps of later location of the Havasupai Indian Reservation. Sketches showing present and proposed irrigation ditches. Map of the Supai Canon Indian School grounds, surveyed and platted in 1900, with accompanying plan of a well and a sketch showing farming ground and proposed irrigation ditch.

HOPI (MOQUI) INDIAN AGENCY AND RESERVATION. 13 items.

18

Map, bearing a file mark including the date 1880, which shows Moqui villages and agency, boundary of Moqui claim, Navajo and non-Indian settlements on claim, and boundary of farming and grazing lands. Maps of the Moqui or Hopi Indian Reservation, one of which shows proposed division of the reservation. Large-scale topographic map and plans of Keams Canyon, one of which bears the date 1886. Map of the Tusayan quadrangle which includes area of Keams Canyon and Oraibi Butte, Ariz.

Forest Service map, dated 1909, of the Moqui Indian Reservation showing types of vegetation and annotated to show area recommended for special protection. Sketch showing topography and bearing information concerning land cover relative to timber and grazing, agricultural and grazing allotments, and unsurveyed lands. Maps showing railroad system in the reservation. Map showing location of a coal mine. See also entry 21.

HUALAPAI (WALAPAI) INDIAN RESERVATION. 12 items. 19

Sketch of the Hualapai Indian Reservation. Map of the west, south, and east boundaries of the reservation, surveyed in 1900. Plat showing land desired by railroad for quarry site. Right-of-way maps, approved 1923-33, of a railroad, telephone and telegraph lines, and highways across the reservation. Plats showing mining claims within the reservation.

KAIBAB INDIAN RESERVATION. 6 items. 20

Plat of the reservation, dated 1918, showing present and proposed boundaries, location of Indian school, ranch, and irrigation project. Map showing land proposed to be eliminated from the reservation. Plat of Township 41 North, Range 2 West, Gila and Salt River Meridian, Ariz., surveyed in 1911, showing irrigation ditches and cultivated land near the eastern boundary of the reservation. Maps showing a telephone line and the Kaibab Wagon Road. Map accompanying report of an investigation made concerning the trespassing of stock on Indian lands.

MARICOPA INDIAN LANDS. See entry 23.

MOJAVE, FORT. See entry 13.

MOQUI INDIAN LANDS. See entries 18 and 21.

NAVAJO (NAVAHO) INDIAN LANDS AND RESERVATION. 86 items. 21

Maps of the Navajo country. Parts of State maps, dated 1882-1909, which show location of the Navajo Reservation (including subdivisions), the Moqui Reservation, and other reservations, some of which are annotated to show areas added by Executive orders. Topographic maps of the reservation showing routes of survey and travel. Maps of the boundaries of the Navajo Indian Reservation as surveyed in 1869, 1884-85, and partly resurveyed in 1919-20. Sketch of the Navajo Reserve and proposed extension. Sketches of the Navajo Extension and adjoining area south of the Moqui Reservation with information in margin relative to area, population, dry farming, and stock raising. Maps of the San Juan Navajo Reservation, subdivision of the larger Navajo Reservation, showing topography and farming and grazing lands. Maps of irrigation projects, including irrigable lands, reservoirs, dams, ditches, canals, wells, and springs. Maps of power development projects. Plats showing mining locations and claims. Maps showing Navajo Indian allotments. Maps, some of which were approved 1930-33, showing proposed and located highways, roads, bridges, and telegraph and telephone lines. Plat showing Government and railroad land. Map, dated 1914, of a survey of a

railroad in the Navajo and Hopi Reservations. Sketch and plan of mission schools. See also entry 18.

PAPAGO INDIAN LANDS. 45 items.

22

Maps showing Papago Indian lands and proposed reservations for the Papago Indians. Topographic map of nomadic Papago surveys showing Indian allotments, also other allotment maps. County maps showing town-site insets and Indian villages. Right-of-way maps, some of which were approved 1920-37, of highways, roads, and a gas pipeline. Maps pertaining to irrigation projects. See also entries 15 and 26.

PIMA AND MARICOPA INDIAN RESERVATION AND PIMA SCHOOL. 15 items.

23

Map of the reservation surveyed according to an act of Congress of 1859. Maps showing the original Pima and Maricopa (Gila River) Reservation and proposed extension and diminution of area. Tracing bearing a file mark including the date 1859, of an unfinished sketch of the reservation. Plats showing exterior boundaries of the reservation, and claims, railroads, rivers, and canals within the reservation. Architectural plans of the Pima School. Part of map of the Casa Grande Valley. See also entry 16.

SALT RIVER INDIAN RESERVATION. 24 items.

24

Maps, including annotated sketches, showing Salt River Valley and the Salt River Indian Reservation, some of which also show the Camp McDowell Indian Reservation. Maps of the reservation or parts thereof which show individual holdings in certain sections, trachoma and tuberculosis morbidity according to Indian residences, acreage under cultivation, irrigable areas, areas entitled to additional water, irrigation canals, pumping plants, water pipelines, electric power lines, telephone lines, roads, proposed bridges, and a railroad. Map, dated 1908, of the Salt River Project which is annotated to show Indian settlements. See also entry 7.

SAN CARLOS INDIAN RESERVATION. 74 items.

25

Sketch (map) drawn by A. G. Pendleton in 1881 showing the relative position of the San Carlos Agency, Ariz. and the coalfields. Maps of the reservation and parts of the reservation showing cattle or grazing ranges, springs, corrals, fences, roads, trails, and railroads. Plats, one of which is dated 1885, surveyed under instructions from Capt. F. E. Pierce, Agent, San Carlos Indian Reservation, showing location of Indian settlements along the San Pedro River and area south of the San Carlos Indian Reservation. Sketches of part of the reservation showing military post, agency buildings, and school garden. Map showing location of proposed Lutheran Mission site. Map of a part of the eastern boundary of the San Carlos or White Mountain Indian Reservation, surveyed in 1887. Maps, plats, and sketches pertaining to irrigation projects and showing irrigated and irrigable land, power plant sites, and irrigation canals. Right-of-way maps, most of which were approved 1898-1932, of railroads and station grounds, a telephone line, and highways. Maps showing mineral surveys and location of mining claims. See also entry 27.

SAN JUAN NAVAJO INDIAN RESERVATION. See entry 21.

SAN XAVIER INDIAN RESERVATION. 8 items.

26

Map of the San Xavier del Bac Reservation for the Papago Indians established by an Executive order of July 1, 1874. Maps showing the San Xavier Reservation, proposed extension of reservation, allotted and unallotted lands, and irrigation ditches, and including information relative to population, irrigation, and agricultural and grazing areas. Plats showing the survey of the Rancho de Martinez. Highway and telephone line right-of-way maps. See also entry 22.

WALAPAI INDIAN RESERVATION. See entry 19.

WHITE MOUNTAIN INDIAN RESERVATION. 61 items.

27

Map of the reservation showing areas affected by various Executive orders from 1872 to 1877. Maps of the present and proposed reserve, one of which shows area of proposed segregation. Maps, plats, and sketches of existing, proposed, and amended boundaries of the reservation, some of which show extension of the reservation to include the San Carlos Division. Topographic maps of the Black River Power Development Project, some of which are marked as exhibit maps forming a part of the application for a power permit covering certain lands within the Apache National Forest and White Mountain Apache Indian Reservation. Maps showing lands suitable for irrigation, irrigation ditches, and proposed canals. Diagram showing position of a mining claim. Maps showing roads, school and road districts, and land allowed for mission buildings. Right-of-way maps of railroads and telephone lines. Map and profile of highway across part of the reservation. See also entries 12 and 25.

YAVA SUPAI INDIAN LANDS. See entry 17.

YUMA INDIAN RESERVATION. 11 items.

ADMINISTRATIVE MAPS, 1878-1941

414

The administrative maps are small scale, special purpose maps generally of the United States and the area west of the Mississippi River which show in color the Indian reservations and similar features and in some instances "number of Indians belonging thereto." Place and reservation names are included as well as State boundaries and the principal rivers. Though they are an incomplete set of published maps they reflect the official activities of the Bureau of Indian Affairs and are helpful in that they show the approximate area and the distribution of the Indian reservations and similar features. Maps are included for the following dates: 1878, 1882, 1883, 1884, 1885, 1892, 1893, 1894, 1895, 1896, 1898, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1911, 1919, 1923, 1933, 1935, 1938, 1939 and 1941.

PART II. CARTOGRAPHIC RECORDS OF THE IRRIGATION DIVISION

The fifth series of maps described in this list was transferred to the National Archives from the Irrigation Division of the Bureau of Indian Affairs where the maps were created or used for official purposes. The Irrigation Division was formally established about 1925 but was preceded by special officers concerned with irrigation matters; therefore many of the maps are of an earlier date. The Irrigation Division plans and gives general supervision to the detailed construction and maintenance work that is carried on in irrigation districts on Indian lands.

INDEX

This is an index to names that appear in the list, such as those of Indian tribes, lands, nations, bands, pueblos, reservations, agencies, and schools; military reservations or posts, camps, cantonments, forts, and barracks; and irrigation and other projects. The numbers refer to the entry numbers in the list. No attempt has been made to enter all subdivisions of a tribe or of all reservations on which it is located under the name of the tribe. For example, Gila Apache is indexed under G alone and not as a subentry under Apache. There are other place names, of course, that appear on the maps, and some of these are in the card index referred to on page 2.
